Product Description

Altoz TRX 354 Finish Cut Zero Turn Mower

Let's get down to business. You don't invest in tools for your business unless there's a positive return. That's why faster ROI is engineered into the DNA of a TRX mower. Now you can reduce man-hours, bid for more lucrative jobs, and get more business. The TRX was designed for those who know only the best will do.

Low ground pressure and high traction are key to getting more jobs done with less damage. Limiting ground pressure reduces spinning, rutting, and damaging underground structures - especially on soft ground. The high traction from the TRX track system allows for better control, especially on slopes.

Aero Deck™

The Aero Deck™ high-output cutting system gives the precision cut you count on. Features recessed anti-scalp wheels and fully adjustable baffles so you can get a professional-grade cut every time.

HV All-Terrain Deck

Heavy-duty, fabricated, reinforced steel deck with six swing blades that absorb impact when contacting solid objects and sloped back rear discharge design that efficiently processes material.

Features

- **54" Aero Deck™** - High-output cutting system designed to deliver a precise, professional-quality finish with recessed anti-scalp wheels and fully adjustable baffles.
- **24 HP FT Series Engine** - Provides dependable gas-powered performance for demanding commercial mowing applications.
- **TRX Track System** - Offers high traction and low ground pressure for improved control on soft ground and sloped terrain.
- **HV All-Terrain Deck** - Heavy-duty fabricated and reinforced steel deck built for durability in challenging mowing conditions.
- **Six Swing Blades** - Designed to absorb impact when contacting solid objects while maintaining cutting performance.
- **Rear Discharge Design** - Sloped back rear discharge efficiently processes cut material for consistent mowing results.

- **Commercial-Grade Construction** - Engineered to help contractors improve productivity and reduce operating time.

Best Use

- **Commercial Landscaping** - Built for professional contractors maintaining large commercial and residential properties.
- **Soft Ground and Slopes** - The track system provides enhanced traction and reduced ground pressure for challenging terrain.
- **Professional Finish Mowing** - The Aero Deck™ delivers a clean, consistent cut across a variety of mowing conditions.
- **Equipment Selection** - The [importance of powerful lawn mower](#) performance becomes clear when handling demanding commercial jobs that require productivity and dependable results.
