Product Description

Scag Extreme Pro Wheeled Blower

With incredible ground-clearing force, nothing gets in the way of the Extreme Pro Blower and its massive air output of up to 2,824 CFM. Heavy-duty construction ensures years of dependable service and worry-free performance, and its 17" steel, 6-blade impeller is dynamically balanced for smooth operation.

RELIABLE PERFORMANCE AND SMOOTH OPERATION

Heavy-duty blower construction ensures years of dependable service and worry-free performance.

- The 17" steel, 6-blade impeller is dynamically balanced for smooth operation.
- The impeller mounting utilizes a tapered locking hub.

2,824 CFM

Massive air output of up to 2,824 CFM provides incredible ground-clearing force on a variety of surfaces and applications. A 2° blower-discharge tilt gets airflow under leaves without losing ground clearance.

The Extreme Pro™ wheeled blower has a substantial CFM output advantage compared to other competitive blowers on the market.

HONDA GX390 11.7 HP ENGINE

A proven and powerful 11.7 hp Honda® engine provides years of smooth and reliable performance.
