Product Description

Ironcraft 3600 Series 60" Dual-Edge Grader

IronCraft's 3600 dual-edge graders can be used to maintain gravel driveways, level a garden plot, and smooth dirt areas including horse arenas and barn floors. The new dual-edge graders are designed with an adjustable cutting depth, making the shanks optional.

The 3600 dual-edge graders feature replaceable skid shoes, reversible blades, adjustable blade height, and adjustable shanks.

Designed to work with 25 to 55 hp tractors, the 3600 dual-edge graders accommodate a Category I quick hitch and are available in two working widths from 60" to 72".
