Product Description

Ironcraft 305 - 60" Smooth-Top Cutter w/o Chains

32 - 90 PTO HP

300 Series Smooth-Top Cutters

These smooth-top cutters are designed for medium/heavy-duty applications such as weeds, grass, and brush up to 2" diameter. These cutters are designed to work with 32 to 90 horsepower tractors, and are available in 60" and 72" widths.

These cutters use a single spindle with two free-swinging blades, which reduce the shock of impact when a stationary object is contacted. Standard equipment includes driveline shields and clutch shields. Front and rear chain discharge shields are optional.
