Product Description

Kioti DK Series DK5520 (ROPS) Compact Tractor with Loader

Priced with Ag Tires and KL5520 Front End Loader

The KIOTI DK5520 compact tractor is designed for those who demand premier performance in a compact tractor. Offering mid & rear PTO, independent PTO, and a category 2, 3-point hitch.

FEATURES

A deluxe suspension seat, PTO cruise, high ground clearance, power steering, tilt steering wheel, center marker, projection light for better night vision, and a one piece engine panel to check service points with ease.

Dress up your tractor with impressive options. Swap standard tires for turf, industrial, or R14 tires. Add a fuel heater kit, 2nd remote hydraulic valve, or bluetooth speaker kit for comfort and convenience.

Wet disc brakes, a sturdy ROPS or Cab, and a secure seatbelt keep you safe. Headlights, safety lights, and a rear work light lets you see attachments and drawbars clearly, even in low-light conditions.

Dependable, liquid-cooled KIOTI 3-cylinder diesel engine hums with fuel efficiency, ready to take on demanding jobs all day long. Engage the rear differential lock for unflinching traction, then command implements with the push-button hydraulic PTO.
