Product Description

Kioti DK Series DK4720SEH (CAB) Compact Tractor with Loader

Priced with Ag Tires and KL5521 Front End Loader

The KIOTI DK4720SEH is a 47 horsepower compact tractor with hydrostatic transmission, rear hitch, and rear hydraulic remotes. SE models offer additional comfort and convenience features: hydrostatic transmission, single hydraulic valve, joystick valve and premium seat

FEATURES

A deluxe suspension seat, PTO cruise, high ground clearance, power steering, tilt steering wheel, center marker, projection light for better night vision, and a one-piece engine panel to check service points with ease.

Dress up your tractor with impressive options. Swap standard tires for turf, industrial, or R14 tires. Add a fuel heater kit, 2nd remote hydraulic valve, or Bluetooth speaker kit for comfort and convenience.

Wet disc brakes, a sturdy ROPS or Cab, and a secure seatbelt keep you safe. Headlights, safety lights, and a rear work light lets you see attachments and drawbars clearly, even in low-light conditions.

Dependable, liquid-cooled KIOTI 3-cylinder diesel engine hums with fuel efficiency, ready to take on demanding jobs all day long. Engage the rear differential lock for unflinching traction, then command implements with the push-button hydraulic PTO.
