Product Description

Kioti NS Series NS4710 Manual (CAB) Compact Utility Tractor with Loader

Priced with Ag Tires and KL5810 Loader

The KIOTI NS4710C HST is a 45-horsepower compact utility tractor with a factory installed cab, and synchro shuttle transmission. It features a comfortable suspension seat, easy-to-use twin HST pedals, and a standard rear PTO.

FEATURES

The whisper-quiet, eco-friendly KIOTI Tier 4 CRDI engine improves fuel efficiency while reducing noise levels. Silence and strength go hand-in-hand, letting you conquer every task with quiet confidence.

The single lever joystick redefines front-loader operation. With a flick of your wrist, you command every movement, from raising the boom to lowering the bucket. A float position allows the bucket free flotation over the ground surface.

Adds versatility and control by allowing you to operate hydraulic implements like backhoes, mowers, and hay rakes using a lever from the cab.

This powerhouse system smoothly delivers power where you need it, while the intuitive three-range transmission (Hi/Mid/Low) and twin pedal operation keep things comfortable and safe. Engage cruise control and savor the smooth ride as you tackle your toughest jobs with newfound ease.

Effortlessly control your implements with the hydraulic independent PTO. A single knob engages the standard rear PTO, while a safety interlock protects you by preventing engine startup with the switch on. Choose manual or automatic operation: select Auto PTO and watch the PTO disengage automatically when the 3-point control rises, keeping you safe and your workflow smooth.
