Product Description

Kioti NS Series NS5310 HST (ROPS) Compact Tractor with Loader

Priced with Ag Tires and KL5810 Front End Loader

NS5310H compact utility tractor provides 53 horsepower, a hydrostatic transmission, independent PTO, single lever joystick, and more.

FEATURES

The whisper-quiet, eco-friendly KIOTI Tier 4 CRDI engine improves fuel efficiency while reducing noise levels. Silence and strength go hand-in-hand, letting you conquer every task with quiet confidence.

The single lever joystick redefines front-loader operation. With a flick of your wrist, you command every movement, from raising the boom to lowering the bucket. A float position allows the bucket free flotation over the ground surface.

Adds versatility and control by allowing you to operate hydraulic implements like backhoes, mowers, and hay rakes using a lever from the cab.

Effortlessly control your implements with the hydraulic independent PTO. A single knob engages the standard rear PTO, while a safety interlock protects you by preventing engine startup with the switch on. Choose manual or automatic operation: select Auto PTO and watch the PTO disengage automatically when the 3-point control rises, keeping you safe and your workflow smooth.

This powerhouse system smoothly delivers power where you need it, while the intuitive three-range transmission (Hi/Mid/Low) and twin pedal operation keep things comfortable and safe. Engage cruise control and savor the smooth ride as you tackle your toughest jobs with newfound ease.
