Product Description

Ironcraft 3515 - Heavy-Duty 15' Flex-Wing Cutters

The 3515 Cutter is ready to make quick work of your next project. It offers reinforced deck structure from front to rear and side to side of the center deck weldment. ¼" inch wall tubing along the length of the hinges for extra hinge protection. Wing fold hydraulic cylinder mount spans the entire width of the center deck weldment and ties into the cutter deck lift cylinder to achieve maximum structural integrity. Deck rings standard on each deck to ensure bent blades do not damage the structure of the cutter.

Heavy 7 Gauge press formed blade pans. Our tooling designer used strategically placed lettering around the pan the reduce the ripple effect commonly seen on competitive models. This allows for greater rotational balance, better cut quality and greater gearbox longevity.

Product Family	3515 Series
Product	3515
Description	15' Heavy Duty Flex Wing Rotary Cutter
RPM	540 or 1000
HP Required	60 minimum PTO
Working Width	180"
Overall Width	188"
Transport Width	90"
Tongue Weight	1900 lbs
Weight (lbs)	5600 lbs w/ 6- 26" laminated tires
Cutting Height	2" to 15"
Cutting Capacity	3-1/2"
Deck Thickness	10 GA
Side Bands	1/4" x 13-1/2"
Suspension	2 Heavy Duty Springs Positioned on the center tailwheel axle

Skid Shoes	Replaceable
PTO Drive Shaft	ASAE CAT 6
Wing Drive PTO	ASAE CAT 4
Driveline Protection	Slip Clutch
Blade Holder	Round Pan
Gearbox Rating	235 HP
Outboard Gearbox Rating	190 HP
Wing Flex	22 Degrees Down to 100 Degrees Up
Blades	1/2" x 4" Uplift
Blade Overlap	6"
Wheel Type	20" or 26" Laminated and 27" Foam Filled or Pneumatic
Hitch Type	Swivel Pivot Self Leveling
Gearbox Warranty	5 year limited
Deck Rings	Standard
Safety Tow Chain	Standard
Guarding Options	Single Row Chains Standard
FPM	17135
